**Preamble and problematic of the National  
 Colloquium**

*After more than seven decades since the United Nations  
 General Assembly adopted the Universal Declaration of  
 Human Rights, it has become necessary to assess the  
 reality of human rights in light of the actual practices of  
 States, and to the content  
 of said declaration..*

*The Universal Declaration of Human Rights includes a  
 wide range of fundamental rights and freedoms, notably  
 the equality in dignity and freedom from discrimination.*

*Indeed, the international community is witnessing a dark  
 reality in terms of human rights and a decline in freedoms,  
 which threatens to further undermine the principles of non-  
 discrimination, equal dignity with a view to building fairer  
 and more stable societies.*

*Based on the fact that the principles of equality and non-  
 discrimination are anchored at the heart of human rights  
 and are consistent with the 2030 Agenda and the approach  
 of the United Nations stipulated in the common framework  
 concerning the inclusion of all without any exception, this  
 national forum aims to assess the current state of human  
 rights By adopting divers approaches and visions , such  
 as the legal approach, the political approach, and the  
 religious approach.*

**The importance of the National Forum:**

The importance of this National Forum lies in the  
 importance of the question of the protection of human  
 rights in itself, given the violations recorded throughout the  
 world and which affect human dignity in general. This is  
 why the subject of human rights is one of the most  
 controversial topics of discussion.

**Objectives of the National Forum:**

This national forum aims to achieve several objectives,  
 such as:

assessing the effectiveness of international human rights  
 conventions, as well as human rights monitoring bodies.  
 - see if the multiplication of international mechanisms for  
 the protection of human rights, both political and judicial,  
 has really contributed to the improvement of human status  
 and respect for international rights

Thus, the scientific conference aims to achieve the  
 following objectives:

• evaluate international human rights conventions, and see  
 how international human rights law adapts to the pace of  
 developments and events on the world stage.

• Assess the performance of international human rights  
 bodies and their ability to protect human rights and  
 improve their situation in an equitable manner at the  
 international level

• Expose the imbalances, gaps and contradictions in  
 international human rights law and offer suggestions for  
 remedying them.

**Themes of the National Forum:**

The National Forum seeks to embody its objectives and  
 to draw up a constructive assessment of the Universal  
 Declaration of Human Rights and the developments  
 which have accompanied it, and to propose measures to  
 correct the imbalances recorded, this through the themes  
 (axes ) following:

**Axis 1:** The theoretical foundation of the principles of  
 human rights.

1. The concept of human rights.

2. Schools of thought on the concept of human rights.

**Axis 2:** Legal framework of human rights principles and  
 international agreements

1. The first declarations of human rights

2. Universal Declaration of Human Rights

3. International political and judicial bodies concerned  
 with the protection of human rights

**Axis 3:** approaches to interpreting human rights

1. Legal approach: A reading of the most important  
 international legal texts relating to human rights.

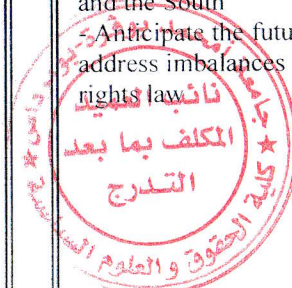

2. The political approach: the political dimension of the  
 philosophy of human rights.

3- Religious approach: Religious considerations of  
 human rights in the face of legal obligations and  
 political considerations

**Axis 4:** Human rights in the world: reality and  
 perspectives

- Different models of human rights between the North  
 and the South

- Anticipate the future of human rights and measures to  
 address imbalances and gaps in international human  
 rights law
