

2024
Ministry of Higher Education and Scientific Research
Boumerdes University

Faculty of Law and Political science
Laboratory of Legals mechanisms for the sustainable development

In cooperation with:

Research Team (PRFU), Waste Sorting and Recycling Strategy in Algeria between Integrated Management, Environmental Preservation and Human health

Research Team (PRFU), The Role of Human Resources in Achieving Sustainable Development at the Local Level

Organize a National Forum in presence and remotely via visual technique on:

The publication in classified scientific journals: reality and perspective

Tuesday, April 15, 2025

The Supervisory Body of the National Forum:

Honorary President: Prof. Yahi Mostepha

General supervisor: Prof. Benseghier Abdeladhim

Laboratory Director: Prof. Amel Yousfi

Presidency of the Forum:

Dr. Cedra wassila-Prof. Touati Nacira

Preamble:

Scientific publishing of academic research is an important tool for renewing and developing knowledge and improving the quality of higher education and scientific research in various scientific fields, including legal. Published academic research is one of the most important objective criteria adopted by various international university classifications such as: Shanghai, British "QS", Spanish "webometrics" and others, which prompted many countries, including Algeria, to put in place important motivations to encourage researchers to excel and innovate in scientific publishing, but practical application clearly reveals the need to evaluate and review the mechanisms for providing these motivations in light of successful international experiences.

Despite the important role expected from digitizing the scientific publishing process through the National Platform for Scientific Journals ASJP to facilitate and accelerate publishing procedures, some researchers face many obstacles in this field. Not to mention the difficulties they face in publishing their legal research in Arabic in high-impact international scientific journals. Although the scientific publishing process in Algeria has witnessed great activity in recent years, as many scientific journals have been established in various research fields, including legal journals, but many of them still suffer from the problem of not being classified in high-impact international journals.

The national forum aims to shed light on the reality and prospects of the scientific publishing process in Algeria by opening the way for specialists and researchers to explore and discuss the following problem:

To what extent does scientific publishing contribute to ensuring the quality of scientific research and raising the level of cognitive training in Algerian university institutions, through the rapid digital transformation?

Forum Objectives

The forum aims to achieve a set of objectives, the most important of which are:

- 1/ Identifying researchers to the mechanisms of safe scientific publishing of their research in various national and international classified scientific journals.
- 2/ Presenting an evaluative reading of the reality of the scientific publishing process through the national platform for scientific journals, and proposing appropriate solutions to redress the gaps and shortcomings that infect the process,
- 3/ Identifying the motivations provided to encourage researchers to publish their scientific research in high-impact scientific journals, reviewing the most important challenges that hinder researchers from benefiting from them, and proposing appropriate solutions to review their submission mechanisms.
- 4/ Identifying successful international experiences in the field of organizing and managing scientific publishing in scientific journals.

5/ Identifying the difficulties and obstacles facing researchers in the field of publishing in classified scientific journals inside and outside Algeria. And discussing appropriate proposals to promote international scientific publishing in the field of legal sciences.

Main Axes:

The first axis: Basics of publishing in classified scientific journals.

The second axis: Contribution of the Algerian platform for scientific journals ASJP to developing scientific publishing in Algeria and improving the quality of scientific research.

The third axis: Official efforts in the field of financing and supporting scientific publishing of academic research and the inevitability of promotion.

The fourth axis: Difficulties and obstacles to publishing in classified scientific journals and mechanisms for promoting it in light of the challenge of ensuring research quality.

Participation conditions:

-The topic of the intervention must be original, not previously published or participated in previous scientific events.

-The topic of the intervention must fall within one of the specified axes, and must be accurate and not general.

-The number of pages of the research paper must not exceed 20 pages.

The Scientific Committee:

Presidency of the Scientific Committee:

Prof. Touati Nacira- Dr. Cedra wassila

Members from inside the University:

Prof. Amel Yousfi-Prof. Boutebba Mourad-
Prof. Fourar Laidi Djamel-Prof. Melati Mammam-Prof. Gueddouj Ghemama-
Prof. Loukal Mariem-Prof. Guenai Zakia-
Prof. Djilil Mounia-Prof. Aissa Zahia-
Prof. Teboub Fatm Zohra-Dr. Ouchaou Rachid-
Dr. Benkaid Ali Mohamed Amine-
Dr. Djakboubi Hamza- Dr. Soltani Hamid-
Dr. Teljouné choumiaissa -Dr. Benserria Souad-
Dr. Saidani Faiza-Dr. Larfi Fatime-
Dr. Chemoune Aljia-Dr. Bouhamla Kaoutar-
Dr. Guernane Fadhila-Dr. Ahlouche Zineb-
Dr. Belmokhtar Hassina-Dr. Saada Fouzia-
Bouabdallah-Dr. Kharbouche Samira-
Dr. Habibatni Boutheina-Dr. Zouba Samira-
Dr. Abdellali Samira-Dr. Touati Karima.

Members from outside the University:

Prof. Ouali Nadia (Bouira University) -Dr. Messaoudi Hicham (M'sila University) -Dr. Guerguer Nabil (Setif University) -Dr. Belkheir Ait Aoudia (Ghardaia University) -Dr. Frendi Nabil (Bouira University) -Dr. Arbi Ladmi Mohamed (Tamanrasset University) -Dr. Haddouche Ouardia (Tizi ouzou University) -Dr. Bousmaha Amina (Saida University) -Dr. Kaid Hafida (University Tiaret) -Dr. Djedaini Zakia (University Alger1).

General Rapporteur:

Pr. Boutebba Mourad

The Organizing Committee:

Presidency of the organizing Committee:

Dr. Guernane Fadhila-Dr. Teljouné Soumaicha

Membres of the Organizing Committee:

Prof. Boutebba Mourad-Prof. Touati Nacira- Dr. Benkaid Ali Mohamed Amine-Dr. Djakboubi Hamza- Dr. Soltani Hamid- Dr. Soltani Hamid-Dr. Oucif Said- P. Zioui Khiradine-Dr. Cedra wassila- Dr. Teljouné choumiaissa -Dr. Saidani Faiza- P. Berllah Amel.

The Recommendation Committee:

Presidency of the Committee:

Dr. Djakboubi Hamza

Members of the Recommendation Committee:

Prof. Boutebba Mourad- Prof. Touati Nacira- Prof. Loukal Meriem -Dr. Cedra wassila- Dr. Teljouné choumiaissa.

Sending interventions:

Interventions must be sent to the following two email addresses:

w.cedra@univ-boumerdes.dz

n.touati@univ-boumerdes.dz

Important Dates:

*The last date for submitting interventions is : **15.03.2025**

*A response to accepted interventions and confirmation of participation started : **01.04.2025**

For any inquiries, you can contact this number: **055635710**
