Progress Report on Sustainable Development Goal 17 – Partnerships for the Goals

University: University of M'hamed Bougara – Boumerdès

Faculty: Faculty of Law and Political Sciences – Boudouaou

Goal: Sustainable Development Goal 17 – Partnerships for the Goals (SDG 17)

Reporting Period: 2024–2025

Reference Framework: THE Impact Rankings 2027

1. Introduction

This report presents the main documented activities undertaken by the Faculty of Law and Political Sciences – Boudouaou that are relevant to cross-sectoral dialogue on the Sustainable Development Goals (SDGs) and collaboration with non-governmental organizations (NGOs). It provides a brief description of each activity under the relevant sub-indicator and refers readers to the corresponding supporting report for further details and related evidence.

2. Practices and Activities by Sub-Indicator

Indicator 17.2.2: Cross-Sectoral Dialogue About the SDGs

Activity 1: National Symposium on the Role of the Public Economic Sector in Achieving Sustainable Development

On 1 October 2025, the Faculty of Law and Political Sciences – Boudouaou hosted a national symposium entitled "The Role of the Public Economic Sector in Achieving Sustainable Development." The event brought together academics from Algerian universities and representatives of sectors outside the university, both in person and remotely. The programme included plenary sessions, scientific workshops, discussions, and interactions with participants, and concluded with the formulation and approval of a set of recommendations.

Activity 2: National Symposium on Food Security in the Sahel Region: Reality and Challenges

The Laboratory of Political and International Studies, in coordination with the Poli'Talk Political Science Scientific Club, organized this symposium on 30 April 2025 in the Palestine Hall at the Faculty of Law and Political Sciences – Boudouaou. It brought together academics from Algerian universities, both in person and remotely, and addressed topics related to food security, climate change, sustainable agricultural development, food production quality, and irregular migration. The event also provided opportunities for discussion and the exchange of views between academics and guests from outside the university.

For details of both activities and their supporting evidence, please refer to the **Documentary Report on Indicator 17.2.2**:

Indicator 17.2.5: Collaboration with NGOs for the SDGs

Activity: Participation in the National Campaign to Plant One Million Trees on the Occasion of National Tree Day

On 25 October 2025, the Faculty of Law and Political Sciences – Boudouaou participated in the national campaign to plant one million trees, launched on the occasion of National Tree Day by the Ministry of Agriculture, Rural Development and Fisheries, under the supervision of the General Directorate of Forests. The participation included tree planting in El Kerrouch Forest (El Alma), in the municipality of Boudouaou, as well as the planting of seedlings around the faculty, with the participation of students, administrative staff, and academic staff.

The campaign involved public and private institutions, environmental associations, and civil society organizations, including the Algeria Green Association, the Algerian Muslim Scouts, Amal Algeria Association, and the Wilaya Civil Society and Youth Forum.

For details of the activity and its supporting evidence, please refer to the **Documentary Report on Indicator 17.2.5**:

3. Summary of Progress

The documented activities reflect the Faculty of Law and Political Sciences – Boudouaou's engagement with sustainable development issues through scientific symposia that provided opportunities for dialogue and the exchange of views between academics and representatives of sectors outside the university, as well as through participation in a national tree-planting campaign involving environmental associations and civil society organizations. These activities demonstrate the faculty's contribution to dialogue on sustainable development and participation in related environmental initiatives.

4. Conclusion

The documented activities provide examples of the Faculty of Law and Political Sciences – Boudouaou's contribution to SDG 17 through the organization of scientific symposia addressing sustainable development issues and encouraging dialogue among different sectors, and through participation in a national tree-planting campaign involving environmental associations, institutions, and civil society organizations. These practices are presented under the relevant sub-indicators, with references to the detailed reports containing descriptions of the activities and their supporting evidence.
